

# Belgium

Cache reviewing in Belgium is performed by two teams of reviewers, depending on the region in which the cache is located.

For simplicity, there are only two "cache-review" regions:

- The region [Vlaanderen](#), consisting of the five provinces (in the sense of the dropdown list on the cache creation form) "Antwerpen", "Limburg", "Oost-Vlaanderen", "Vlaams-Brabant", and "West-Vlaanderen".
- The regions [Brussels-Capital and Wallonie](#), the latter consisting of the provinces "Brabant Wallon", "Hainaut", "Liège", "Luxembourg", and "Namur".
